PLEASE NOTE:

1. Our MINIMUM ORDER—\$25

2. We occasionally have petite and larger leaf sizes of some of our varieties available—please ask re: availability and prices.

3. While we grow all of these items year around, **there are times when we may NOT be able to provide specific ones.** Therefore all items are sold on an "As Available" basis, especially some of the specialty items that we grow specifically for our mixes, in which case substitutions will be made when possible.

4. Our micros are known for their long shelf life. However, in order to maintain their long shelf life once at the restaurant, they must be kept in a cooler (or refrigerator) and not be allowed to dry out.

5. If you have a need for something we are not currently growing, or would like us to make a custom mix, feel free to inquire about our custom order policy.
